0773 27 Valtra N123 with front loader

In accordance with the role model of the Scandinavian tractor smiths, the Valtra N123 appears with an impressive front loader. Absolute loyalty to its role model awaits friends of the agricultural machine when they get their hands on this Valtra, which is in line with WIKING's quality philosophy. Even as a 1:32 miniature, the Valtra N123 stands for Scandinavian functionality in perfection. Numerous details make clear why the precision model is so fascinating: the cabin and the engine hood can be opened and the front loader can be moved into all positions.

0773 29 Claas Lexion 770 harvester with V 1200 grain mower attachment

The surprise has come to fruition. For the first time, WIKING builds a 1:32 scale harvester! The precision giant of modelbuilding miniaturizes the Claas Lexion 770 with cutting unit V 1200. The powerful 1:32 miniature a previously absent functionality that makes the Lexion as a model just as distinctive as its role model. Thus, the WIKING program receives a new top model even in terms of size alone!
