

NEW ITEMS FEBRUARY 2014

CLASSICS WITH AURA

0018 10 Accessory set

0203 04 Ford Escort

0644 01 Access platform vehicle (Magirus)

0693 21 THW - Rescue vehicle (MB L 1413)

0634 01 Breakdown truck (MAN Pausbacke)

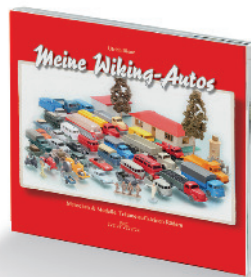

0677 01 Rear dump truck (Büssing 8000)

0504 02 Heavy duty truck (MAN 19.230)

Classics of the 1950s to 1980s will give WIKING a perfect start to 2014. The Büssing 8000 with a rear dump truck trailer is entering the scene for the first time as a construction site vehicle. The Magirus forward drive vehicle arrives as a municipal vehicle with an access platform, while the Mercedes-Benz L 1413 runs away for special use at THW. Back in the 1970s, the exemplars of the legendary MAN-Pausbacke were breakdown trucks and its successor MAN 19.230 was as a heavy duty truck on the road for the shipping company Siefert. The

0006 44 WIKING-book „Meine Wiking-Autos“

four-door Ford Escort with a new gentian blue bumper fits this exactly. There is a long-awaited addition for WIKING fans – an accessory set with

street lights and signs, but also tram and bus stops as well as rotating traffic lights and a telephone box. The new book „Meine Wiking-Autos“ tells true stories about people and models. The book, nobly made and with impressive series of pictures, makes the miniaturized environments come as alive as in real life – a fascinating, dreamy WIKING picture oasis.

MODEL UPGRADES FEBRUARY 2014 YESTERDAY & TODAY

0881 02 Deutz-tractor D40 L

0388 12 Brantner three-axle trailer

0361 02 Fendt 936 Vario

0076 03 VW Golf VI GTI

0830 14 VW "Pretzel" Beetle

0095 01 Motor boat on trailer

0081 02 Opel Rekord '60

0861 26 Fire brigade - Land Rover

0797 12 VW T1 Bus

0519 01 Platform truck (MAN)

0851 01 Hanomag ST 100 with two furniture trailers

0942 06 Refrigerated truck (MB) N-gauge 1:160

1:87 model construction contrasts can hardly be more eye-catching. The then powerful Deutz tractor D40 L faces the Fendt 936 Vario, while the VW "Pretzel" Beetle from WMF faces the hp-strong VW Golf VI in the GTI model with eye-catching sports decor. WIKING's February model upgrades achieve miniatures full of character that could not be more authentic. For instance, the traditional model makers present the VW T1 Bus in the beautiful Lufthansa design

of the 1960s and supplement the decade with the deep black, white-roofed Opel Rekord 1960. Finally the motor boat is seen again and the Land Rover as a fire brigade vehicle – both of them indispensable milestones in the classic WIKING program. And even the

tiltable MAN in the biased factory colors and the Hanomag ST 100 in the design of Berlin-based shipping company Harry W. Hamacher fit seamlessly in classic car chronology. And for friends of the N-gauge, WIKING miniaturizes a MB refrigerated truck with sea fish advertising.
